

HUSSEIN ALMASRI

Software Engineering Student

Irbid, Jordan | +962 786 177 590 | husseein.almasri.dev@gmail.com | linkedin.com/in/hussein-almasri-53a7aa350 | github.com/hussein-almasri

PROFESSIONAL SUMMARY

Software Engineering student with a primary focus on Flutter and mobile app development, built through hands-on university and personal projects. Currently learning web and backend development to broaden my skill set. I enjoy solving practical problems through code and am looking for an internship where I can learn from experienced engineers, grow my skills, and contribute to real projects.

EDUCATION

Jadara University

2022 – Present

Bachelor of Software Engineering | Irbid, Jordan

GPA: 85.6 / 100

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, SQLite, Firebase (Basic)

Web Development: HTML, CSS, JavaScript, React (Learning), TypeScript (Learning), Laravel (Basic)

Programming Languages: Python, PHP, SQL, C++, C#

Tools: Git, GitHub, VS Code, Trello

PROJECTS

JadaraBus (Graduation Project)

2026

React, TypeScript, Supabase, PostgreSQL

- Contributed to developing a web-based transportation platform as part of a university graduation project.
- Worked with a team using GitHub and Trello while learning modern web development practices.
- Assisted in integrating frontend and backend components while learning modern web development practices.

SkillHub

2026

Flutter, Python, REST APIs, Authentication

- Built a Capture The Flag learning platform as part of a Flutter Full Stack course project.
- Implemented user authentication and integrated REST APIs to connect app features.
- Focused on creating an interactive and engaging learning experience for users.

Student Life Manager

Available on Google Play, 2025

Flutter, SQLite

- Developed a mobile application in Flutter designed for university students to manage courses, assignments, notes, and schedules.
- Used SQLite for offline storage so the app works reliably without an internet connection.
- Published on Google Play under Student Life Manager.

FlowWork

2025

Laravel, PHP, MySQL

- Learned Laravel MVC architecture while collaborating on a university team project.
- Helped implement authentication and database functionality.
- Practiced structuring an application using the MVC pattern.

CERTIFICATIONS

Mobile Application Development (Full Stack) – Together We Go Academy | June 2026 | 70 Hours

Python Essentials 2 – Cisco Networking Academy × Jadara University | May 19, 2026

PCEP – Certified Entry-Level Python Programmer – Python Institute | May 17, 2026

Information Security Training Program – DEVSEC Academy × Jadara University | August 2024 | 40 Hours

COMMUNITY INVOLVEMENT

IEEE Student Member – Helped during the launch of the IEEE student branch at Jadara University and participated in workshops.

IEEE AI Modeling Hackathon – Participated as part of a team, applying teamwork and problem-solving skills.

Languages: Arabic – Native | English – Intermediate (Technical Reading & communication)
